FEDERAL ENERGY REGULATORY COMMISSION

Standardizing Generator Interconnection
Agreement and Procedures

Docket No. RM02-1-000

NOTICE OF EXTENSION OF TIME

(January 16, 2002)

On January 16, 2002, the American Public Power Association, the American Wind Energy Association, the Edison Electric Institute, the Electric Power Supply Association, the National Association of Regulatory Utility Commissioners, the National Rural Electric Cooperative Association, and the Project for Sustainable FERC Policy (collectively, Petitioners) filed a joint motion for an extension of time for the filing of comments on the issues posed by the Commission's Advance Notice of Proposed Rulemaking (ANOPR), as directed by the Notice issued by the Commission on December 14, 2001, in the above-docketed proceeding.

In its motion, Petitioners state that due to the voluminous nature of the documents involved in this proceeding to date, additional time is needed for industry personnel to prepare and file comments. The motion also states that an extension will not unduly delay the Commission's process and will lead to more thoughtful and well-developed comments in the effort to enhance the ANOPR process.

Upon consideration, notice is hereby given that an extension of time for the filing of comments on issues posed by the ANOPR is granted to and including February 1, 2002.

Linwood A. Watson, Jr.
Acting Secretary
