TABLE OF CONTENTS.....	i
LIST OF APPENDICES	v
LIST OF TABLES.....	vi
LIST OF FIGURES.....	ix
ACRONYMS AND ABBREVIATIONS	AA-1
EXECUTIVE SUMMARY	ES-1
1.0 INTRODUCTION.....	1-1
1.1 Background.....	1-1
1.2 Project Purpose and Need	1-1
1.3 Purpose and Scope of this Document	1-3
1.3.1 FERC.....	1-4
1.3.2 BLM	1-4
1.4 Public Review and Comment	1-5
1.5 Nonjurisdictional Facilities	1-9
1.6 Related Actions.....	1-10
1.7 Changes Since Issuance of the Draft EIS	1-18
2.0 PROPOSED ACTION	2-1
2.1 Proposed Facilities	2-1
2.1.1 Pipeline Facilities	2-1
2.1.2 Compressor Stations and Appurtenant Facilities	2-1
2.2 Land Requirements	2-3
2.2.1 Pipeline ROW.....	2-3
2.2.2 Additional Temporary Workspace Areas	2-7
2.2.2.1 Contingent Winter Construction Workspace.....	2-8
2.2.3 Pipe Storage and Contractor Yards	2-8
2.2.4 Access Roads	2-9

TABLE OF CONTENTS

2.2.5	Aboveground Facilities	2-10
2.3	Construction Procedures.....	2-11
2.3.1	General Pipeline Construction Procedures.....	2-14
2.3.1.1	Survey and Staking.....	2-15
2.3.1.2	Clearing and Grading	2-15
2.3.1.3	Trenching	2-17
2.3.1.4	Pipe Stringing, Bending, and Welding	2-17
2.3.1.5	Lowering-in and Backfilling.....	2-18
2.3.1.6	Hydrostatic Testing	2-18
2.3.1.7	Final Tie-in	2-19
2.3.1.8	Commissioning	2-19
2.3.1.9	Cleanup and Restoration.....	2-19
2.3.2	Special Construction Procedures	2-19
2.3.2.1	Road, Highway, and Railroad Crossings.....	2-20
2.3.2.2	Steep Terrain	2-20
2.3.2.3	Waterbody Crossings	2-21
2.3.2.4	Wetland Crossings.....	2-24
2.3.2.5	Blasting.....	2-25
2.3.2.6	Residential Construction.....	2-26
2.3.2.7	Fences and Grazing	2-26
2.3.2.8	Construction Immediately Adjacent to Foreign Lines	2-27
2.3.3	Aboveground Facility Construction Procedures	2-27
2.3.4	Corrosion Protection and Detection Systems	2-31
2.4	Construction Workforce and Schedule	2-31
2.5	Environmental Inspection, Compliance Monitoring, and Post-Approval Variances	2-32
2.5.1	Compliance Monitoring	2-33
2.5.2	Post-Approval Variance Process	2-34
2.6	Operation and Maintenance	2-34
2.6.1	ROW Monitoring and Maintenance	2-34
2.6.2	Pipeline Integrity.....	2-35
2.7	Future Plans and Abandonment	2-35
2.8	Permits, Approvals, and Regulatory Requirements	2-36
3.0	ENVIRONMENTAL ANALYSIS	3-1
3.1	Geology	3-1
3.1.1	Geology and Physiography	3-1
3.1.2	Mineral Resources	3-1
3.1.3	Geologic Hazards	3-4

TABLE OF CONTENTS

3.1.4 Paleontological Resources	3-7
3.2 Soils and Noxious and Invasive Weeds	3-11
3.2.1 Accelerated Erosion.....	3-13
3.2.2 Reduced Soil Quality	3-14
3.2.3 Soil Contamination.....	3-18
3.2.4 Noxious Weeds and Other Invasive Plant Species	3-18
3.3 Water Resources.....	3-25
3.3.1 Groundwater	3-25
3.3.2 Surface Water	3-30
3.3.3 Wetlands	3-39
3.4 Vegetation.....	3-42
3.4.1 Vegetation Communities	3-42
3.5 Fish and Wildlife	3-50
3.5.1 Fishery Resources	3-50
3.5.2 Wildlife Resources	3-53
3.6 Special Status Species.....	3-62
3.6.1 Plant Species	3-63
3.6.2 Terrestrial Animal Species.....	3-65
3.6.3 Fish Species.....	3-76
3.7 Land Use, Recreation, Visual Resources.....	3-81
3.7.1 Land Use	3-81
3.8 Cultural Resources	3-91
3.8.1 Results of Cultural Resources Survey	3-91
3.8.2 Native American Consultation	3-93
3.8.3 Construction and Operational Impacts.....	3-93
3.9 Socioeconomics.....	3-96
3.9.1 Population	3-96
3.9.2 Employment and Economics	3-98
3.9.3 Housing	3-100
3.9.4 Public Services and Facilities	3-103
3.9.5 Public Sector Fiscal Resources.....	3-104
3.9.6 Transportation	3-106
3.9.7 Property Values	3-107
3.9.8 Environmental Justice.....	3-108

TABLE OF CONTENTS

3.10 Air and Noise Quality	3-110
3.10.1 Air Quality	3-110
3.10.2 Noise	3-116
3.11 Reliability and Safety	3-120
3.11.1 Safety Standards	3-120
3.11.2 Pipeline Accident Data	3-124
3.11.3 Impact on Public Safety	3-126
3.12 Cumulative Impacts	3-128
3.12.1 Cumulative Impacts to Resources	3-132
4.0 ALTERNATIVES	4-1
4.1 No Action	4-1
4.2 System Alternatives	4-2
4.2.1 Other Existing Pipeline Systems	4-3
4.2.2 Proposed Pipeline Systems	4-4
4.3 Route Alternatives	4-6
4.3.1 Uinta Basin Lateral Route Alternatives	4-7
4.3.2 Collocation Alternative	4-14
4.4 Route Variations	4-18
4.5 Alternative Locations for Aboveground Facilities	4-18
5.0 CONCLUSIONS AND RECOMMENDATIONS	5-1
5.1 Conclusions of the Environmental Analysis	5-1
5.2 Alternatives Considered	5-2
5.3 Significant Unavoidable Impacts	5-5
5.4 Irreversible/Irretrievable Commitment of Resources; Short- and Long-Term Uses of the Environment	5-6
5.5 Federal Energy Regulatory Commission Staff Recommended Mitigation	5-6
6.0 PUBLIC COMMENTS AND RESPONSES.....	6-1

LIST OF APPENDICES

APPENDIX A – MAPS SHOWING PIPELINE ROUTE AND ABOVEGROUND FACILITIES

APPENDIX B – WIC'S UPLAND EROSION CONTROL, REVEGETATION, AND MAINTENANCE PLAN

APPENDIX C – WIC'S WETLAND AND WATERBODY CONSTRUCTION AND MITIGATION PROCEDURES

APPENDIX D – WIC'S RECLAMATION PLAN

APPENDIX E – WIC'S HYDROSTATIC TEST PLAN

APPENDIX F – WIC'S WATERBODY CROSSING PLAN

APPENDIX G – WIC'S NOXIOUS AND INVASIVE WEED PLAN

APPENDIX H – WIC'S CONSERVATION MEASURES PLAN

APPENDIX I – WETLANDS AFFECTED DURING CONSTRUCTION OF THE PICEANCE PROJECT

APPENDIX J – SPECIAL STATUS SPECIES IDENTIFIED FOR THE PICEANCE PROJECT

APPENDIX K - AGENCIES, ORGANIZATIONS, AND INDIVIDUALS WHO RECEIVED COPIES OF THE FINAL ENVIRONMENTAL IMPACT STATEMENT

LIST OF PREPARERS AND REVIEWERS

GLOSSARY

INDEX

LIST OF TABLES

1.4-1	Issues Identified and Comments Received During the Public Scoping Process for the Piceance Project	1-7
1.5-1	Nonjurisdictional Facilities.....	1-11
1.7-1	Summary of Pipeline Realignments	1-18
2.1-1	Proposed Facilities Associated with the Piceance Project	2-2
2.2-1	Summary of Land Requirements Associated with the Piceance Project	2-4
2.2-2	Dimensions and Acreage of Typical Additional Temporary Workspace Areas	2-8
2.2-3	Locations and Acreage of Pipe Storage Yards and Contractor Yards.....	2-9
2.3-1	Extra Workspaces Associated with Difficult Terrain Along the Proposed Piceance Project	2-21
2.3-2	General Locations of Shallow Bedrock	2-26
2.4-1	Pipeline Construction Workforce and Proposed Schedule.....	2-32
2.8-1	Major Permits, Approvals, and Consultations for the Piceance Project.....	2-38
3.1-1	Physiographic Provinces and Geologic Conditions Along the Proposed Pipeline	3-2
3.1-2	Potential Geologic Hazards Along the Proposed Pipeline Route.....	3-6
3.1-3	Total Miles of Fossil Occurrence Potential Condition 1, 2, and 3 Areas Along the Piceance Pipeline Route	3-8
3.2-1	Acreage Summary of Sensitive Soils	3-11
3.2-2	Acreage Breakdown of Topsoil Depth and Average Slope Class Along the Piceance Project Pipeline Route	3-12
3.2-3	Noxious Weeds Potentially Occurring Along the Proposed Pipeline Route	3-19
3.3-1	Groundwater Wells Within 150 Feet of the Proposed Centerline.....	3-27
3.3-2	Perennial Waterbodies.....	3-31
3.3-3	Currently Proposed Hydrostatic Test Water Volumes and Sources	3-36
3.3-4	Summary of Wetland Types Affected by Construction and Operation	3-40
3.4-1	Vegetation Communities Crossed by the Piceance Project Pipeline.....	3-43
3.4-2	Acres of Vegetation Cover Types Affected by Construction and Operation of the Piceance Project	3-46
3.5-1	Perennial Fisheries Crossed by the Proposed Piceance Project.....	3-50
3.5-2	Crucial/Critical Big Game Habitats Affected by the Piceance Project.....	3-55
3.7-1	Summary of Federal, State, and Local Government Owned Lands Crossed by the Proposed Pipeline Route	3-81

LIST OF TABLES

3.7-2	Recreation and Special Interest Areas Crossed by and Within 0.25 Mile of the Proposed Piceance Project Pipeline Route	3-82
3.7-3	Acres of Land Uses Affected by Construction and Operation of the Piceance Project.....	3-84
3.7-4	Visual Resource Management Classification for BLM Lands Crossed by the Piceance Project...	3-89
3.8-1	Native American Consultations for the Piceance Project	3-94
3.9-1	Population Change in Project Region	3-96
3.9-2	Labor Market Conditions.....	3-98
3.9-3	Housing Inventory	3-100
3.9-4	Estimated Temporary Housing Inventory, Winter 2004	3-101
3.9-5	Projected Temporary Housing Demand Requirements, Selected Months, 2005/2006	3-102
3.9-6	Existing Public Services and Facilities	3-103
3.9-7	County Property and Sales Tax Base	3-104
3.9-8	Projected Assessed Value and Annual Property Taxes, by County	3-105
3.9-9	Race and Poverty.....	3-109
3.10-1	Air Quality Emissions Analysis for the CIG Greasewood Compressor Station	3-116
3.10-2	Existing Noise Levels ¹	3-117
3.10-3	Estimated Noise Levels from the CIG Greasewood Compressor Station	3-119
3.11-1	Natural Gas Service Incidents by Cause	3-124
3.11-2	Outside Forces Incidents by Cause (1970-1984)	3-125
3.11-3	External Corrosion by Level of Control (1970-1984)	3-126
3.11-4	Annual Average Fatalities - Natural Gas Transmission and Gathering Systems	3-127
3.11-5	Nationwide Accidental Deaths	3-127
3.12-1	Natural Gas Facilities Included in the Piceance Basin Cumulative Analysis Located Near the Proposed Meeker Hub	3-130
3.12-2	Steep Slope/Incised Channel Areas Crossed by Existing and Proposed Pipelines (Piceance Project and Entrega Project)	3-133
3.12-3	Hydrostatic Test Water Withdrawal Volume Estimates from Surface Water Sources (gallons) ..	3-134
3.12-4	Overall Big Game Habitat Disturbance (Acres) for Existing and Reasonably Foreseeable Projects within the Piceance Project Pipeline Cumulative Study Area	3-136
3.12-5	Cumulative County Ad Valorem Tax Increases - WIC Piceance and Entrega Projects.....	3-143
4.1-1	Comparison of Controlled Emission of Criteria Pollutants for Three Boiler Types	4-3
4.2-1	Capacity and Subscription Status of Existing Interstate Pipelines Serving the Piceance Basin.....	4-3

LIST OF TABLES

4.2-2	Comparison of Facilities Required by Entrega and WIC Proposed Actions and “One-Pipe” Alternative.....	4-5
4.3-1	Comparison of Resources Crossed by WIC’s Proposed Action (MP 105.1 to MP 141.7) and the Uinta Basin Lateral Route Alternatives	4-10
4.3-2	Piceance Project Milepost Intervals Considered for Additional Piceance and Entrega Collocation to Reduce Sage Grouse Breeding and Brooding Habitat Impacts	4-15
6-1	Public Comment Index Codes	6-2
6-2	Oral Comment on the Piceance Basin Expansion Project Draft EIS	6-2

LIST OF FIGURES

1.1-1	Project Overview	1-2
1.5-1	Nonjurisdictional Facilities.....	1-13
1.6-1	Relationship of Proposed TransColorado and CIG Compressor Stations.....	1-14
1.6-2	Relationship of Proposed Piceance Project and Entrega Project Natural Gas Pipelines	1-17
2.2-1	Typical Construction ROW	2-5
2.2-2	Typical Construction ROW when Adjacent to Existing Pipeline.....	2-6
2.3-1	Typical Pipeline Construction Sequence.....	2-16
2.3-2	Conceptual Horizontal Directionally Drilled Waterbody Crossing	2-23
2.3-3	CIG Wamsutter Compressor Station.....	2-28
2.3-4	CIG Greasewood Compressor Station.....	2-29
2.3-5	County Road 4 Pigging Facility and Mainline Valve #4	2-30
3.3-1	Major Waterbearing Formations	3-26
3.3-2	Regional Watersheds and Principal Rivers.....	3-32
3.4-1	Vegetation Land Cover	3-45
3.9-1	Projected Construction Workforce – Piceance Project.....	3-97
3.10-1	Average Temperature and Precipitation at Meeker, Colorado 30-Year Average 1971-2000	3-110
3.12-1	Facilities Included in Piceance Project Cumulative Analysis.....	3-129
3.12-2	Location of the Piceance Project in Relation to Existing and Proposed Parallel Pipelines and Sensitive Resources	3-131
3.12-3	Piceance Project and Entrega Project 2005 and 2006 Construction Schedule and Workforce Estimates	3-142
3.12-4	Combined Piceance and Entrega Project Workforce Estimates, Projected Place of Residence.....	3-143
4.3-1	Existing Pipeline Segment Connections with Greasewood Hub.....	4-8
4.3-2	Uinta Basin Lateral Route Alternatives.....	4-9
4.3-3	Danforth Hills North – Piceance Project and Entrega Project Potential Collocation Segments.....	4-16
